Tesla Sales Plunge 63% in EU's Second-Biggest EV Market

- Company registered only 1,141 new cars in France in January
- Automaker underperformed overall industry and EV segment

Tesla's Full Self Driving Doesn't Work, Says Gerber

By Craig Trudell

Tesla Inc. registrations plummeted 63% last month in France, the European Union’s second-biggest market for battery-electric vehicles.

The manufacturer registered only 1,141 cars

in January, the fewest since August 2022, according to French industry association La Plateforme Automobile. Tesla underperformed the overall industry and total EV sales, which dipped 6.2% and 0.5%, respectively.
